International Journal of Fracture

CONTENTS OF VOLUME 73 (1995)

Vol. 73, No. 1, 1995

Foreword		v
Analysis of cracks perpendicular to bimaterial interfaces using a novel finite element	S.A. MEGUID, M. TAN and Z.H. ZHU	1–23
Longitudinal shear of a crack in a multi-material circular cylinder	X. ZHANG	25–38
Fracture criterion based on the higher-order asymptotic fields	Y. WEI and T. WANG	39–50
Interaction of a penny-shaped crack with an elliptic crack	A. ROY and T.K. SAHA	51–65
Dynamic fracture detection using the force-displacement reciprocity: application to the compact compression specimen	H. MAIGRE and D. RITTEL	67–79
Crack-particle interaction in a two-phase composite. Part II: crack deflection	P. LIPETZKY and Z. KNESL	81–92

Vol. 73, No. 2, 1995

Insensitivity of the reciprocal work contour integral method to higher order eigenvectors	W.C. CARPENTER	93–108
Impact and dynamic fracture of tough polymers by thermal decohesion in a Dugdale zone	P.S. LEEVERS	109–127
The development of an accurate model for the fatigue assessment of doubly curved cracks in tubular joints	D. BOWNESS and M.M.K. LEE	129–147
Fracture statistics of a unidirectional composite	C. BAXEVANAKIS, D. JEULIN and J. RENARD	149–181

Vol. 73, No. 3, 1995

The interaction between the wellbore and pre-existing fractures	C. ATKINSON and M. THIERCELIN	183–200

Competing risks models for fracture in the ductile to brittle transition temperature region	R. MOSKOVIC and M.J. CROWDER	201–212
Study of crack-tip motion in dynamic fracture by microscopic time-resolved holography	J.S. STECKENRIDER and J.W. WAGNER	213–222
On the dynamic behaviour of micro-damaged stratified media	M. WOŹNIAK	223–232
Radial cracking with closure	J.P. DEMPSEY, L.I. SLEPYAN and I.I. SHEKHTMAN	233–261
An energy approach to crack closure	X.J. WU	263–272

Vol. 73, No. 4, 1995

Characterization of creep-fatigue crack growth behavior in 2.25 Cr-1 Mo steel using $(C_t)_{avg}$	P.S. GROVER and A. SAXENA	273–286
The stresses in the neighborhood of a crack tip under effects of electromagnetic forces	J.-X. XU and N. HASEBE	287–300
Interactions between inclusions and various types of cracks	C. HWU, Y.K. LIANG and W.J. YEN	301–323
A numerical study of ductile void growth under dynamic loading conditions	D. C. BARTON, M. WAHEED, M. S. MIRZA and P. CHURCH	325–343
A note on calibration of ductile failure damage indicators	F.D. FISCHER, O. KOLEDNIK, G.X. SHAN and F.G. RAMMERSTORFER	345–357
The calculation of dynamic stress intensity factors for a cracked thick walled cylinder	Z.Q. WANG	359–366
Author index		367
Volume contents		369–370
